REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance:

The process for controlling the fatty acid chain composition of triglycerides is considered to be unobvious and unanticipated over the prior art. US Pat. 6,124,486 the closest prior art, discloses a fractionation process similar to the instant invention.

However, it is not taught or suggested to a further separate the product from the second separation step into trilog and mono and dilong glycerides and then separate the mono- and dilong glycerides from each other.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
